

## The Ridenour Lyrique Basset A Clarinet

LYRIQUE  
*Free your Imagination*

At RCP we believe high quality clarinets should be affordable, especially those that are used to perform the greatest masterpieces written for the instrument. So, the past few years we've been hard at work on developing an affordable Basset A clarinet.

**The Ridenour Lyrique Basset A Clarinet** enables you to play the Mozart Clarinet Concerto and Mozart Clarinet Quintet as Mozart originally wrote them for clarinetist Anton Stadler. The range extends the low register to a written "C" (concert "A" on the first space of the bass clef) below written low "E" (concert "C#"). Unlike manufacturers that also offer only the Basset A as a complete instrument, we at RCP make it easy for you to afford, offering it to you in not one, but three possible options.

**Option 1.** Order the basset A clarinet as an additional joint, along with the Lyrique A clarinet.

**Option 2.** Order the basset A lower joint by itself.

*Unless you own a Lyrique A clarinet, this will require you to send us your present A clarinet so it can be matched*

*with our basset A lower joint. The acoustical matching and set up will be personally done by Tom Ridenour. The basset A lower joint is acoustically compatible with the Buffet R-13 and Festival A clarinets, and most Yamaha A clarinet models.*

**Option 3.** Order the basset A clarinet by itself, in its own individual case (shown above).

**Basset A clarinet lower joint and Lyrique A clarinet as a set is \$2,195.00\*.**

**Basset A, hand tuned and adjusted to match your present Buffet or Yamaha A clarinet: \$1,125.00**

**Basset A clarinet, complete with individual case: 1,695.00**

\*Basset A lower joint will come in its separate case.
